Think Green  
Take Effective Action  
Use recycled, create recyclable  
Be Sustainable  
Eco Mood On!

Be scientific: calculate the acoustic comfort  
Design appealing shape based on performance  
Be analytical: catch criticities, find appropriate solution  
Achieve acoustic comfort  
Design Soundscape  
Be emotional, hear the space

Plan flexibility  
Always label with certifications  
Innovate  
Focus on people

Get the touch, feel the material  
Fall in love with the finishing

Map the space, connect minds

Never stop, research is the base
